**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 15, 16, 19, 24, 27, 31-33, 36, 37, 41, 44, and 48 are rejected under 35 U.S.C. 102(b) as being anticipated by Jomura et al.

With respect to claims 15 and 32, the reference discloses in **figs. 3B** and **4 a** multi-layer actuator with first **2a** and second electrode layers with portions **21a** only on the outer cylinder and angularly off set and common electrodes **3a** and **3b**. In the last paragraph of column 6, the reference discloses that the actuator could be a cylinder.

With respect to claims 16 and 33, the reference discloses in **fig. 3B** that the common electrodes are diametrically opposed.

With respect to claims 19, 24, 27, 31, 36, 37, 41, 44, and 48, the electrode connection is a strip.

***Allowable Subject Matter***

2. Claim 14 is allowed.
3. Claims 17, 18, 21-23, 25, 26, 28-30, 34, 35, 38-40, 42, 43, and 45-47 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

4. Applicant's arguments with respect to claims 15-31 have been considered but are moot in view of the new ground(s) of rejection.
